Dorothy Perkins

## HARDY ROSES and PERENNIALS

We call special attention to this portion of our list. The roses are of the Hybrid Rugosa type, need no winter protection, are even reported hardy in Manitoba, and bloom all through the summer till freezing weather. The Peonies, Phlox, Iris and Dahlia offered are the very best standard varieties of their color. In making a start with these it pays to get the best as they only give full satisfaction. Abbreviations: W - white, P - pink, R - red, DR - dark red, Y - yellow, B - blue.
